VANCOUVER CITY BY-LAWS.

BY-LAW No. 425.

A By-Law to provide for the establishment of the definite and permanent grades of the public streets of the City.

WHEREAS it is deemed expedient in the interests of the City that the grades of the streets should be definitely and permanently fixed:

Be it therefore enacted by the Mayor and Council, in open meeting assembled, as follows:—

1. Plans and profiles shewing the fixed and permanent grades of all streets and lanes (except those in District Lot 264A until such time as the location of the streets have been definitely settled by survey) that have been surface graded before the date hereof shall be prepared and filed in the office of the City Engineer, for reference for the information of the owners of lands abutting on such streets and lanes and others interested in the same, so that any person intending to build on land abutting on the said streets may readily ascertain the fixed and permanent grade thereof.

2. That the work of preparing the plans and profiles aforesaid shall be spread over a term of four years from the date hereof.

3. That in the event of any street or lane not hitherto surface graded being surface graded after the date of this by-law coming into effect, a plan and profile shewing the fixed and permanent grade of such street or lane shall be prepared and filed in the City Engineer's office at least thirty days before any work is done on the said streets or lanes in permanent grading the same.

4. The grade of any street shall not be lowered or increased in height above one foot, unless a special resolution of the Council be first passed authorising such work being done, and unless plans and profiles of the proposed alteration in grade be deposited in the Engineer's office for thirty days before work is commenced thereon, and a written notice has been sent by mail to the address of all owners and agents, as shewn on the last revised assessment roll of lots abutting on such street or lane, stating that such plans and profiles are on file at the City Engineer's office, and the date on which work will be commenced.
